## **Heatherwood Exceeds Mid-Point Construction of Town Homes of Deep Creek**

PUNTA GORDA, Fla. (May 18, 2007) –The rate of construction has reached 60 percent on the Town Homes of Deep Creek, a town home community built by Heatherwood Construction, located on Rio De Janiero in Punta Gorda.

The project consists of five, two-story buildings totaling 52 units. Located beside a golf course, each town home offers 1,400 square feet of living space for a total of 72,800 square feet in the community. The town homes include reinforced concrete, masonry and steel construction, complete with impact doors and windows for improved protection from hurricanes.

Terry James of Heatherwood Construction is serving as senior project manager, and Jeff Wise is serving as job superintendent. Construction is expected to be complete in December 2007.

Based in Bonita Springs, Fla., Heatherwood Construction Company is a full-service commercial general contractor serving Southwest Florida since 1980. The company provides complete construction turnkey services to clients from Naples to Sarasota including site search and selection, feasibility analysis, site development, value engineering, vertical construction and more. For more information, visit [www.HeatherwoodConstruction.com](http://www.HeatherwoodConstruction.com) or call (239) 949-6855.
